**PLAINTIFFS' MEMORANDUM IN
SUPPORT OF MOTION TO AMEND
COMPLAINT**

CLERK OF COURT

INTRODUCTION

On December 6, 2010, the plaintiffs filed a motion to amend the complaint to delete Paragraph 29 of the Amended Complaint which asserts that "the amount in controversy for the entire proposed Class does not exceed \$5 million." At the time of filing the first Amended Complaint on November 19, 2007, neither the plaintiffs nor their counsel had a factual basis to assert that the class damages exceeded \$5 million.

As set out herein, discovery information provided by Defendant GAF, including information provided by GAF after motions to compel were filed, led the plaintiffs to understand that the amount of damages suffered by the Class exceeds \$5 million. GAF has known this far longer than plaintiffs because it was from the GAF documents and its responses to discovery that plaintiffs learned the potential size of the class and that the class damages likely exceed \$5 million. Plaintiffs assert that this motion to amend should be granted to conform to the evidence developed in discovery from information and documents supplied by GAF.

STATEMENT OF FACTS

The plaintiffs filed this case on April 17, 2006, at a time when they knew that their GAF shingles were defective because they had begun cracking prematurely. In the months that followed, they learned from GAF that there was a “Mobile cracking problem” affecting others, including persons in South Carolina, who had roofs with Timberline shingles manufactured at the GAF plant in Mobile, Alabama. This caused plaintiffs to file an amended complaint on November 19, 2007, asserting a class action on behalf of other South Carolina property owners with the defective Timberline product.

Thereafter, GAF removed the case a second time¹ on December 12, 2007, asserting that damages in the case for the putative class exceeded \$5 million. In its Order dated January 31, 2008, the District Court remanded the case because the damages sought at that time did not exceed \$5 million.

Before this remand, the plaintiffs had taken the depositions of only five GAF personnel (Richard Pienkos, Adem Chich, Kevin Hull, Guy Gimson and Lily Vu). None of these five GAF employees identified the size of the potential class. Since remand, the plaintiffs have sent multiple discovery requests to GAF.² On March 3, 2008, plaintiffs posed a third set of interrogatories to GAF (Exhibit A) inquiring as to the number of

¹ GAF removed the original complaint on May 26, 2006. The case was then remanded by the US District Court on July 24, 2006, for the reason that the plaintiffs were seeking less than \$75,000 in damages.

² Since the January 2008 remand, plaintiffs have served GAF with 3rd, 4th, 5th, 6th, 7th, and 8th sets of interrogatories and 3rd, 4th, 5th, 6th, 7th, and 8th RFP, in addition to three motions to compel dated 8/21/08, 9/18/08, and 8/18/09. A total of 13 depositions have been taken since this remand. Over 32,000 pages of documents have been produced to plaintiffs by GAF.

South Carolina consumers who had purchased Timberline shingles in the last 10 years. GAF responded on July 15, 2008, by sending a computer list of shipments from the GAF Mobile plant to distributors which was undecipherable, as it reflected no quantities. (Exhibit B).

During late 2008 and throughout 2009, GAF had provided confusing and/or conflicting information about the number of squares of Timberline product sent to South Carolina.

Motions to compel were filed by plaintiffs in 2008 and 2009. On May 28, 2009, Plaintiffs' Supplemental Interrogatory was sent to GAF. (Exhibit C). Interrogatory No. 1 asked:

"State the total number of squares of Timberline shingles produced by GAF's plant in Mobile which were distributed to South Carolina, categorizing by year and product name for the years 1999 to 2008:"

Plaintiffs' counsel wrote GAF counsel on June 11, 2009, asking for clarification. (Exhibit D). The GAF answer to this interrogatory was provided on July 10, 2009. It reflected that 213,000 squares of Timberline product was distributed in South Carolina during the period 1999 to 2007. (Exhibit E).

On February 11, 2010, plaintiffs' counsel wrote GAF counsel a letter which focused specifically on the perceived contradictions and discrepancies of the number of Timberline shingles distributed to South Carolina from Mobile during the period 1999 to 2007. (Exhibit F). On June 29, 2010, GAF counsel wrote plaintiffs' counsel and

explained the inconsistencies. In this letter, GAF counsel “confirmed that the figure of 213,509.17 is the correct number of squares.” (Exhibit G). This was formally confirmed on September 20, 2010, when GAF provided its Responses to Plaintiffs’ Eighth Set of Requests for Production. (Exhibit H).

Since the average residential roof, according to deposition testimony, is 30 squares of shingles and the cost to install the said shingles is \$300 per square, the average roof costs \$9,000. (Deposition of plaintiffs’ expert, Jim Koontz, pp. 55, 56 - Exhibit I). By dividing 30 squares into the confirmed figure of 213,500 squares of Timberline shingles being sold in South Carolina, it would appear that there could be as many as 7,000 class members in South Carolina and that the total damages could be well in excess of \$5 million. GAF has offered no explanation of why it waited so long after the January 31, 2008 remand to inform plaintiffs of the potential size of the class. This information was presented by GAF to plaintiffs only after many, many months of discovery requests, despite GAF’s early knowledge of the potential size of the class.

ARGUMENT

After extensive discovery since the last remand from the US District Court on January 31, 2008, the plaintiffs have learned from the GAF discovery responses that the class damages likely exceed \$5 million. Since GAF has control of the distribution figures of shingles manufactured in its Mobile plant, it has known, or should have known, this information long before plaintiffs, and GAF is not prejudiced by the proposed amendment.

Rule 15, SCRPC, provides that the Court is to freely grant leave to amend when justice requires it and there is no prejudice to any other party. See Foggie v. CSX Transportation, Inc., 313 S.C. 98, 431 S.E.2d 587 (1993). The opposing party has the burden of establishing prejudice. Tanner v. Florence County, 336 S.C. 552, 568, 521 S.E.2d 153, 156 (1999) (reversible error for lower court to deny motion to amend complaint); Stanley v. Kirkpatrick, 357 S.C. 169, 174, 592 S.E.2d 296, 298 (2003) (reversible error to deny motion to amend). The rule strongly favors amendments, even after judgment to conform to the evidence presented at trial. See Rule 15(b), SCRPC.

Our courts have held that the only basis for a defendant to establish prejudice to a proposed amended complaint is if the amendment creates a new issue to be tried and a lack of opportunity to refute it. Stanley v. Kirkpatrick, 357 S.C. 169, 174, 592 S.E.2d 296, 298 (2003).

The plaintiffs' proposed amendment is to conform to the evidence produced by GAF. It can establish no prejudice.

GAF HAS LONG KNOWN OF THE EXTENSIVE DAMAGES

As set forth above, plaintiffs' counsel during 2010 wrote letters and sent discovery requests to GAF to clarify the inconsistencies in the number of shingles produced at Mobile by GAF that were distributed to South Carolina during the relevant period. GAF wrote plaintiffs' counsel in late June 2010 to confirm that over 200,000 squares were sold in South Carolina during this time period. This was followed up by a formal discovery response from GAF on September 20, 2010.

It is not a coincidence that on July 12, 2010 GAF moved for the *pro hac vice* admission of Joel A. Mintzer, with the law firm of Robins, Kaplan, Miller, Ciresi, LLP in Minneapolis, Minnesota, as counsel in the case. Mr. Mintzer's self-described specialty is "using craft to kill" bet-the-company litigation. It cannot be argued that Mr. Mintzer would have brought in as *pro hac vice* counsel in this case if it did not involve damages of more than \$5 million. Attached herewith as Exhibit J is an excerpt from his law firm's website that identifies his expertise in "complex class action defense."

As set forth herein, GAF has long known that the damages in this case would most likely exceed \$5 million. It should not be heard to complain when it did not clearly tell plaintiffs' counsel this in 2008 when their discovery requests originally asked for the distribution of Mobile shingles in South Carolina.

CONCLUSION

The plaintiffs did not learn that the class damages would likely exceed \$5 million until many months after the January 2008 remand, when GAF finally provided the discovery responses on this subject. Plaintiffs ask for leave to amend their complaint to remove Paragraph 29 and to seek full damages above \$5 million for the benefit of all members of the class.

For the reasons set forth herein, pursuant to the provisions of Rule 15, SCRPC, and the applicable law, the motion should be granted.

RE: Jack Brooks and Ellen Brooks v. GAF Materials Corporation
Civil Action No. 2006-CP-36-129

Dear Gray:

Enclosed herein are Plaintiffs' Answers to Defendant's Interrogatories and Plaintiffs' Responses to Defendant's Request for Production to Expert Jim Koontz, including a CD labeled Brooks0004 and documents designated as Brooks005-008, along with my certificate of service for same.

Also, I wanted to remind you that there are pending matters that GAF needs to address, which I have set forth to you in my previous letters to you.

These issues are as following:

- (1) In your answers to interrogatories that we received, GAF states that "warranty registration cards are not received at any department of GAF in Wayne, NJ or any other GAF facility in any other city." We would respectfully point out that this answer by your client appears to be evasive, if not untrue. The warranty registration form that we have seen (GAF "Smart Choice Shingle Limited Warranty") purports to have the following return mail address:

"GAF Materials Corporation
PO Box 395
Ingomar, Pennsylvania 15127"

It would certainly appear that this is a GAF address because the addressee is "GAF Materials Corporation" itself. Accordingly, we expect GAF to provide a full and complete response to Plaintiffs' Sixth Requests for Production - Request #2. We believe that the GAF response is in violation of the letter and spirit of the discovery

Page 2

Gray T. Culbreath, Esquire

rules for which sanctions should be awarded (as GAF did not produce any documents responsive to Request #2 of our 6th set of RFPs);

- (2) The Order of Judge Hayes on the hearing that he held on December 19, 2008 granted Plaintiffs' Motion to Compel at that time. It also compelled GAF to provide full responses "or certify by affidavit of an appropriate person that no response is possible." We received the Affidavit of Jean Marcus dated June 1, 2009 which we believe is not in compliance with that Order. We do not believe that in-house counsel could be considered the appropriate person to sign the affidavit, nor that the contents of the affidavit comply with that Order. The affidavit should address each request separately and state that the documents sought have been searched for.
- (3) As to distribution in South Carolina of Mobile Timberline shingles, GAF provided us with responses (GAF2864-GAF2891 & GAF6267-GAF7231) that did not appear to include all GAF suppliers/wholesalers, including but not limited to: ABC Supply, Best, Bradco, Human Owens, and Columbia Wholesale (all in Columbia), as well as Cannon Supply in Greenville and Home Depot (all over SC).
- (4) In the document production (GAF 2864 – 2891), it appears that the total units are 126,700; What are the units? Truckloads? Squares? We need to know what the unit on these documents is.

Please contact us at your earliest convenience to discuss these outstanding matters. We would prefer not to file a motion to compel, but will have to do so. We would except to argue it on the same day as the hearing on the motion to certify

With best regards.

Sincerely,

POPE AND HUDGENS, P.A.

RE: Jack Brooks, et al. v. GAF - C/A No. 2006-CP 36-129

Dear Gray:

I am writing to ask for clarification about GAF's discovery responses. As we read the answers and documents produced by GAF, there are significant contradictions/discrepancies of the number of Timberline shingles distributed to SC from the Mobile plant from 1999 to 2007.

- (a) In GAF's answer to Interrogatory #1 dated 7/10/09, the number of squares of Timberline shingles produced in Mobile and distributed in SC from 1999 to 2007 was identified as 213,509.17.
- (b) In GAF's answer to Interrogatory #1 dated 3/2/09, GAF identified the number of squares of Timberline shingles from Mobile that were distributed nationwide for that time period as 37,762,425.

This creates a serious question because, as we understand it, the Mobile plant supplied only eight states (and parts of two others). If South Carolina had one-eighth of the distribution of Timberline shingles during this time period, there would have been over 4,500,000 squares of this product sold in SC from Mobile during the time period. This figure is 20 times higher than the GAF answer dated 7/10/09.

- (c) Further, GAF furnished us with a spreadsheet (GAF 2864-GAF 2891) which lists the products shipped to SC distributors during the time period. It is unclear from the spreadsheet what the unit quantities are – are they squares? Truckloads? These documents show that there were 126,714.6697 units sold in South Carolina to these distributors during the time period. We do not understand the total.

We request that GAF furnish us supplemental answers to a, b, and c that explains the basis for these figures. Absent this, we will have to move to compel that GAF provide discovery responses under oath as to the distribution in South Carolina of this product during the time period. We may also need to take a 30(b)(6) deposition of the GAF distribution official who can answer this.

On another point, GAF has not listed any expert in response to our interrogatories. We assume that GAF is not using one. If it is, we would request full answers with regard to any such expert.

RE: Jack Brooks and Ellen Brooks v. GAF Materials Corporation
Civil Action No.: 2006-cp-36-129
Claim No.: 55-224387
C&L File No. 817-103

Dear Tom:

I apologize for not responding earlier to your letter of February 11, 2010 regarding the apparent inconsistencies in the number of Timberline shingles distributed to South Carolina from the Mobile plant from 1999 to 2007. Hopefully this letter will correct those inconsistencies.

You first asked about GAF's Answer to Interrogatory Number 1 dated July 10, 2009 in which we identified the number of Timberline shingles produced in Mobile and distributed in South Carolina from 1999 to 2008. We have confirmed that the figure of 213,509.17 is the correct number of squares.

The answer found in Interrogatory Number 1 dated March 2, 2009 which identifies a nationwide number of 37,762,425 is incorrect. The correct number for the years 1999 to 2007 is 13,141,629 squares. This is reflected in GAF6060-7231. A CD with the excel spreadsheet was provided. Another copy is herewith provided with the formulas and totals. Additionally, the bates number referenced above provides the States where the shingles were shipped. During the time period in question, 1999-2007, the Mobile plant shipped into 22 States and the total shipped to the 22 States during 1999 to 2007 is 14,162,505 squares.

Finally, as to the unit quantities provided in GAF2864-GAF2891, the unit set forth are "squares". The number of 126,714,669.7 is incorrect. The spreadsheet produced as GAF2864-2891, for shingles shipped to South Carolina distributors is 131,056 for the period of January 2000 to November 2007. A CD with the excel spreadsheet containing the formula that results in that total is provided.

Please call me if you have any questions regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Gray T. Culbreath".

TO: GIBSON SOLOMONS, ESQUIRE, DANIEL A. SPEIGHTS, ESQUIRE, AND
THOMAS H. POPE, III, ESQUIRE ATTORNEYS FOR THE ABOVE-NAMED
PLAINTIFFS:

Pursuant to Rule 34 of the South Carolina Rules of Civil Procedure, Defendant GAF Materials Corporation, (hereinafter "GAFMC") by and through its undersigned counsel, does hereby provide the following responses to Plaintiffs' Eighth Set of Requests for Production as follows:

GENERAL OBJECTIONS

In setting forth these Responses, the GAFMC does not waive the attorney-client, work product, or other privilege or immunity from disclosure which may attach to information responsive to the Requests. GAFMC does not concede the relevance or materiality of the Requests, or the subject matter to which the Requests refer.

These Responses are submitted by GAFMC subject to, and without in any way waiving or intending to waive, but on the contrary intending to reserve and reserving:

1. All questions as to competency, relevancy, materiality, privilege and admissibility as evidence for any purpose of the documents referred to or answers given, or the subject of

them, in any subsequent proceeding or in the trial of this action or any other action or proceeding;

2. The right to object to other discovery procedures involving or relating to the subject matter of the Requests responded to here; and

3. The right at any time to revise, correct, add to, or clarify any of the responses set forth here, or documents referred to here.

4. GAFMC objects to these Requests to the extent that they ask for information protected by the attorney-client or work product privileges.

5. In responding to Plaintiffs' Requests, GAFMC has conducted a thorough and reasonable search of those sections of its corporate records where documents and other things responsive to these Requests are most apt to be kept in an ordinary course of business. In addition, GAFMC's representatives have spoken to those employees who are most apt to have knowledge as to the location or existence of information that may be responsive. To the extent the subject Requests asks GAFMC to take actions other than these, GAFMC objects because that discovery is overly broad, unduly burdensome, and asks for information not relevant and not reasonably calculated to lead to the discovery of admissible evidence.

RESPONSES

1. All documents referred to or alluded to in Plaintiffs' Seventh Set of Interrogatories to Defendant GAF and/or GAF's answers to same.

RESPONSE: Subject to its objections, attached hereto is a CD containing the following bates numbered documents:

- a. previously produced GAF6060-7231
- b. previously produced GAF2864-2891.

c. **GAF10497-10503 - 1999 Mobile product shipped to South Carolina**

2. All documents reflecting methods of identification for confirming that a Timberline shingles was manufactured at the Mobile, Alabama plant of GAF, rather than at some other plant, including, but not limited to photographs, diagrams, or memoranda.

RESPONSE: In addition to its general objections, GAFMC objects to this request as overly broad and unduly burdensome to the extent that it seeks "all" documents reflecting methods of identifying the shingles at issue, as that would require the production of documents regarding not just the manufacturing processes at the Mobile plant but also regarding the manufacturing processes at every other plant. GAFMC also objects to this request as seeking irrelevant information to the extent that it includes shingle sales that occurred outside of South Carolina. Subject to these objections, GAFMC refers plaintiffs to its answer to Interrogatory No. 3 and the documents referenced therein.

3. All documents upon which GAF relies in asserting that 213,509.17 squares is the correct number of squares of Timberline shingles produced at Mobile and distributed in South Carolina from 1999 to 2008 including, but not limited to, backup documents, invoices, and shipping documents that are maintained by hard copy or electronically.

RESPONSE: See previously produced GAF2864-2891 for the total squares of Timberline shingles shipped to South Carolina for the period 2000-2007(131,056 squares). See GAF10497-10503 for the total squares of Timberline shingles shipped to South Carolina in 1999 (82,254.17 squares). Mobile plant ceased production of Timberline shingles at the end of 2007.

1 A. I don't recall how many roofs he's
2 installed. I want to say, if not over 1,000,
3 several hundred different Timberline roofs that he
4 had installed in this area.

5 Q. You think he may have installed over 1,000
6 in this community?

7 A. I may be wrong, but that number kind of --
8 I have some sort of recollection that he's -- he's
9 put on a lot of roofs.

10 Q. Do you know how many of those roofs have
11 been replaced?

12 A. I don't.

13 Q. Do you know what the average -- have you
14 calculated the average cost to replace a roof in
15 South Carolina?

16 A. It varies. Obviously the size of the
17 house, the height of the house, access to the house.
18 So, I mean, it can vary.

19 Q. What's the average -- do you know
20 generally what's the average size of a residential
21 residence in the United States, roof size that is,
22 sir?

23 A. I don't know that I've ever really looked
24 at what the average size would be, but I would think
25 average would probably be 20 to 30 squares,

JIM D. KOONTZ

Page 56

1 something like that.

2 Q. And do you have knowledge of what the
3 average cost to re-roof, let's call it, a 20-square
4 roof?

5 A. Again it varies throughout the United
6 States depending on market and labor force and
7 what's going on. Probably anywhere from a couple
8 hundred dollars to maybe \$300 a square.

9 Q. And would that range, couple hundred
10 dollars to \$300, would it make any difference how
11 many squares there were on a roof?

12 A. Well, the larger -- the larger the
13 residence, the more squares that you have. Or if
14 you're, say, working on a church where you have a
15 fairly substantial area, the larger the area, you do
16 get some economies of scale. So your prices tend to
17 go down somewhat.

18 But there can be a number of factors. If
19 access is very, very difficult, you may have a large
20 roof, but if you can't get up to it and you have to
21 haul debris a couple of times from one location to
22 another, then that could certainly drive up the
23 cost.

24 Q. You're going to build a little more into
25 your price to account for the debris removal?

Selected Results*

In re Imagitas, Inc. DPPA Litigation: Defended government contractor in ten state class actions alleging that the insertion of advertising into motor vehicle registration mailings violated the federal Drivers' Privacy Protection Act, and subjected the contractor to \$2,500 in statutory damages per person. Transferred all cases to a single court for pretrial coordination. The district court then granted summary judgment in a test case, which the Court of Appeals affirmed.

Omnicare, Inc. v. UnitedHealth Group, Inc.: Represented defendants UnitedHealth Group, Inc. and PacifiCare, Inc. in an antitrust lawsuit involving alleged price-fixing and fraudulent practices relating to prescription drug reimbursement under the federal Medicare Part D program. Plaintiff Omnicare sought damages exceeding \$1 billion and permanent injunctive relief. After lengthy discovery and numerous pretrial motions, we obtained summary judgment in favor of our clients on all claims on January 16, 2009.

Best Buy v. Developers Diversified Realty: On behalf of retailer, sued landlords in 12 states affiliated with a national shopping center developer alleging that the landlords could not charge "insurance" expenses that were not paid to commercial insurance companies. Summary judgment was granted in favor of the retailer.

Hell v. Best Buy: Defended retailer in a class action alleging age discrimination during the course of a reduction-in-force. Case settled prior to rulings on retailer's summary judgment motions.

ValueMax Litigation: Defended Pitney Bowes Credit Corporation in multiple class action lawsuits alleging that a contractual risk-of-loss provision constitutes insurance. Obtained summary judgment in two cases. One RICO class action was dismissed for failure to prove "intent," which was affirmed on appeal. *Chris Albritton Construction Co. v. Pitney Bowes Credit Corp.*, 304 F.2d 527 (5th Cir. 2002).

Using Craft To Kill A \$50B Class Action

Law360, New York (June 11, 2010) -- Teachers of trial advocacy stress the importance of a theme. A theme should be understandable, persuasive and comprehensive. So too, early identification of a strong theme is critical in complex, bet-the-company, litigation. A strong theme will inform strategic decisions, discovery and motion practice, as well as trial.
